This is a two to three hour show, but I will allow parents and guardians to sign dancers out at intermission, if necessary. I must see the guardian in person, and sign out the dancer to release them. I would like our Cougarettes to show their appreciation for dance and stay for the whole performance, as a 'team' builder, but I realize this isn't possible for everyone. Thank you, in advance for everything you are all doing to help make this experience positive
